## Why a Climate Emergency

Climate change is real and human caused.

Superstorm
Sandy \* Forest
Fires \* Coral Reefs
Dying \* Arctic
Collapse \*

It's happening now, and it's happening here.

It is even worse than expected.

The impacts will intensify at an accelerating rate.

Amazon
Fires \* Droughts \*
Hurricane Dorian \* Midwest Flooding \*
Ocean Acidification \* Greenland
Melting \* Sea Level Rising \* Tipping
Points \* Increasing Climate
Displacement \* Accelerating
Extinction Rate \* Heat
Waves \* Crop Loss
Causing Hunger

Globally \*

Houston
Flooding \*
and
Greenhouse
Gas
Emissions

Continue to Rise
